WORK EXPERIENCE

Software Engineer | CalistFitness

Nov 2025 - Present

Worked as a Software Engineer Intern on a cross-platform fitness app, developing the frontend with React Native and Expo, collaborating with a Django backend and PostgreSQL (Supabase), and working in a fully remote team using Jira for task management while applying strong time management and collaboration skills.

IT Sales Assistant | Fnac

Dec 2025 - Jan 2026

Provided customer advice in the Computing Department, explaining technical features of technology products clearly, conducting product demonstrations, maintaining stock and organization, and staying up to date with new product releases and technology trends.

Mobile App Developer | QN Digital Solutions

Mar 2025 - Jun 2025

Development of mobile applications from scratch using React Native with Expo and Django with PostgreSQL databases. I participated in all stages of the project lifecycle, from initial design to testing and deployment. Worked on both team-based and individual projects, mainly in a remote setting.
