WORK EXPERIENCE

Software Developer | Miraiku

May 2026 - Present

Working as a Software Engineer on an AI-powered application, developing frontend features with React and backend services using FastAPI. Collaborated with a Supabase database, contributing to the design and implementation of scalable solutions while working in an agile team environment. Participating in the development of AI-related functionalities, ensuring efficient integration between frontend, backend, and data layers.

Software Engineer | AmplifyWare

Nov 2025 - June 2026

Worked as a Software Engineer Intern on a cross-platform fitness app, developing the frontend with React Native and Expo, collaborating with a Django backend and PostgreSQL (Supabase), and working in a fully remote team using Jira for task management while applying strong time management and collaboration skills.

Mobile App Developer | QN Digital Solutions

Mar 2025 - Jun 2025

Development of mobile applications from scratch using React Native with Expo and Django with PostgreSQL databases. I participated in all stages of the project lifecycle, from initial design to testing and deployment. Worked on both team-based and individual projects, mainly in a remote setting.

EDUCATION

EPSUM

2023 - 2025

Associate's Degree

Cross-platform Applications Development - GPA → 9.14

IES Antonio Fraguas Forges

2021 - 2023

Spanish Baccalaureate

Science and technology - GPA → 7.7
